The Diocese Museum Graz displays a selection of high-quality treasures of historical and modern sacred art from Styria all year round. There are also changing special exhibitions, including the annual Christmas exhibition with historical nativity scenes. Special educational programmes for children are offered to accompany the respective exhibition themes. There are also events accompanying the exhibitions, themed tours, church tours, readings, lectures and festivals.

The Diocese Museum Graz sees itself as a place of artistic dialogue that invites visitors to engage with the history, development and present of the Catholic Church and the Christian faith.

EXHIBITION AREA

The exhibitions are on one level and are divided into 3 areas:

The permanent exhibition is partly located in the room next to the cash desk area.

The second part of the permanent exhibition is located in the next room. You have to go out into the corridor again. The second room has 2 entrances, **the first of which is not barrier-free due to a step (height 18 cm).**

The second entrance is behind the corridor door (hinged glass door, fire door, therefore not open). This is **partially barrier-free with a threshold of 9 cm.** One leaf of the access door is always open (**clear width only 65 cm**). Opening the 2nd leaf results in a clear width of 100 cm.

The special exhibitions are accessible without thresholds via a side corridor

There is sufficient space in the exhibitions themselves.
